LAWN CARE

Our services are **100% organic and safe** for people, pets and wildlife.

We recommend the following care program for best results.

The following treatments can be applied in the spring and the fall:

CORE AERATION aids in eliminating moss from the lawn and promotes vigorous root growth in grass.

GARDEN PLUS MOSS CONTROL kills the moss while amending the soil

DOLOPRIL LIME increases the pH levels in soil to help grass plants absorb fertilizer application

ORGANIC LAWN FOOD slow release complete formula for lush full lawns

CORN GLUTEN is a natural weed suppressant that discourages germination (note does not kill weeds already present in lawn)

LAWN RENOVATION

Ask us for a quote for older lawn repairs or renovation and new lawn installation seed or sod.
